

Table A5. YANMAR control substances

Table A5. YANMAR control substances

*1. The gross weight of lead, mercury, cadmium, and hexavalent chrome is 0.01wt% or less for packaging and packaging waste.

*2. According to each law or standard that in case of usage that corresponds to EU RoHS Directive, ELV Directive, and Yanmar voluntary restraint exclusion usage.

*3. The prohibition beginning of on the market is done by revision REACH Directive that it prohibited according to the REACH revision of rules in February, 2012.

Table A5. YANMAR control substances

*1. The gross weight of lead, mercury, cadmium, and hexavalent chrome is 0.01wt% or less for packaging and packaging waste.

*2. According to each law or standard that in case of usage that corresponds to EU RoHS Directive, ELV Directive, and Yanmar voluntary restraint exclusion usage.

*3. The prohibition beginning of on the market is done by revision REACH Directive that it prohibited according to the REACH revision of rules in February, 2012.
